

PAV Forensics Services

Company Profile

Established 2001 Copyright © 2017 - PAV Forensics Services

Overview

PAV Forensics Services; formally known as PAV Polygraph Services was founded by Flip Vorster in 2001 after a 13-year career in the South African Police Service. With the evolution of needs within the security realm the company expanded to now include client specific forensic services. PAV aims to provide services of utmost excellence delivered by their highly trained and qualified experts.

The company has quickly expanded over the years from smaller beginnings to now being a trusted risk management solution.

Intelligence Profiling

Intelligence profiling, is an investigative tool that is intended to help management to accurately profile subjects or offenders. This includes the following: Intelligence Individual Profile, Intelligence Company Profile and Country Overviews.

Physical Site Risk Valuation

PAV Forensic Services offers a physical security risk assessment in order to support decisions on latent threats one may be facing and their likelihood. PAV Forensic Services assists in the identification of vulnerabilities and the potential impact of exploitation.

Security System Installations

PAV Forensics Services assists companies by offering security system installations, allowing management to have a visual representation of potential risks.

Clientele Follow Up And Maintenance

We value our relationships with our clients above all else and strive to take it to the next level. PAV Forensics Services not only provides the risk solution but also helps with implementation and management thereof.

Cellular Verification

As the evolution of communication has evolved, so has the risk factors. PAV Forensic Services is now able to assist in minimising cellular network communication potential risks through the unnoticeable foot print each of us leave behind.

Data Analysis

Our expertise in analysis, allows our analysts to review and convert raw data into useable information (intelligence) giving companies the power to utilise intelligence for proactive measures.

Intelligence Gathering

PAV Forensics Services will provide a company with intelligence gathering methods.

PAV Forensics Services provide unique client specific services; in-turn empowering management to implement proactive risk mitigation results.
